

Connecticut  
Early Childhood  
Alliance

December 7, 2011

The Honorable Dannel P. Malloy  
Governor  
State of Connecticut  
210 Capitol Avenue  
Hartford, CT 06106

Dear Governor Malloy,

We write to express our strong objections to the State's "Motion for Protective Order re Preschool" that was recently filed in the CCJEF v. Rell school finance lawsuit. The motion seeks to exclude from the suit all children attending preschool programs approved and funded by the state, even those who attend programs that are integral components of public school districts. For the sake of Connecticut's children, and the successful and productive adult lives we want and need all our children to realize, we urge you to direct the Attorney General to withdraw this motion.

By removing preschool children from the case, the motion refutes decades of well-established education research that has resoundingly identified quality early childhood education programs as essential elements in providing an adequate and equitable education. These programs have been proven effective - and highly cost-effective as a public investment - in study after study. Not only do early childhood education programs significantly lessen the preparation gap for disadvantaged children as they enter kindergarten, but the benefits of quality early childhood education have been found to endure throughout the public school years and well into adulthood. These benefits are personal to the children who attended such programs and also societal, reaping continuing benefits to the state and local communities in which they choose to live and work.

The motion filed by the Attorney General, however, would negate this vast body of research and the years of effort by the State of Connecticut to create and fund early childhood education programs, many in our public schools. The motion, in essence, would deny all children below kindergarten age their constitutional rights to an adequate and equitable education pursuant to the March 2010 Connecticut Supreme Court decision in CCJEF v. Rell.

Signed,
